

Completing the Student visa form for applications made outside the UK.

SOAS Student Advice Service endeavours to ensure that the information in this guide is accurate but please note that legislation is subject to change at short notice.

This guide should be used with the Student route caseworker guidance which can be found on the [GOV.UK website](#) and our [Outside the UK - Student visa requirements guide](#).

Before applying online

Please read through our other guide [Outside the UK - Student visa requirements guide](#). You should only submit your visa application once you meet all the requirements and can submit any necessary documents. Once you pay for your visa application online, you will not be able to make any changes to your form and there may be limitations on withdrawing your application and receiving an application fee refund. **Your visa application date is considered to be the date you pay the application fee, not the date you enrol biometrics at a Visa Application Centre (if required to).**

Applying online

- To start your application, [go to this GOV.UK web page](#).
- If you answer 'Yes' to having an EEA or Swiss passport, you will be directed to prove your identity via the **UK Immigration: ID Check App** and to register for a UK Visas & Immigration account. Please skip to page 16 of this guide now for information about this process and how to complete the form. If you're unable to use the app then please continue reading the guide from here.
- Confirm your visa type as **Student**
- Select a country to provide your biometrics
- Check and confirm the availability of biometric enrolment locations

Note: The Covid-19 pandemic has affected the availability of some Visa Application Centres. You can find the opening times, address and contact details for UK visa application centres near you on [this GOV.UK website](#).

If you have dependents, family members who will also need a visa to come to the UK with you, you will need to make a separate application. There is a link on [this](#) page to do so. To find out more

about which students can bring dependents and the maintenance requirements to do so, please see our guide, [Outside the UK - Student visa requirements guide](#).

In addition to the names already provided, are you now or have you ever been known by another name?

If your name is different to that given in your passport, you will need to declare this on your application form and may need to provide original evidence to explain the name change (i.e. a marriage certificate, birth certificate, deed poll document). Immigration Health Surcharge (IHS)

You must pay your Immigration Health Surcharge (IHS) before you can complete your visa application. You will pay your IHS on another website, then return to this site to complete and pay for your application.

If you are exempt, you will still need to get a reference number from the IHS website.

Your IHS reference number will automatically be included on your application once you pay and return to this site.

Your answers will be locked when you go to the IHS website, even if you do not pay your IHS straight away. If you need to make any changes to your answers you must do so now.

Go to IHS website

Save and continue

When you click on 'Go to IHS website' you will be redirected to another website. Here you will be asked to check that your personal details are correct. You will also be asked to provide some information about your course. Use your CAS to help you. Once you have made the IHS payment you will be re-directed back to your application to complete the final steps and pay the visa application fee. This figure may be converted to your local currency at rates set by the Home Office. You must then upload any documentary evidence that you're required to provide and press Confirm to submit your application.

You will receive a confirmation email from UKVI when your application has been submitted where it will then be reviewed by a UKVI caseworker. Processing times are advertised online and are usually 3 weeks. You will receive your visa decision by email with instructions on how you can prove your immigration status as your visa will be digital rather than a physical document. Refer to our [guide](#) for further information about when your visa is issued and travel to the UK.
