

PROPOSED FITNESS TO STUDY PROCEDURE FOR SOAS

Introduction

SOAS is committed to supporting students and recognises the importance of a student's health and wellbeing in relation to his/her academic progression and wider university experience. SOAS recognises it has a responsibility to support students to function well in order to maximize their potential while at university.

SOAS recognises that the use of any formal procedure may cause stress, particularly if the role and purpose of the procedure is not understood. In order to minimise the risk of causing additional stress, the procedure should be used sensitively, ensuring that any student subject to the procedure understands the focus on his/her best interests, and that all possible steps are taken to minimise additional concerns and anxieties experienced by the student.

Scope and purpose

The Fitness to Study Procedure is intended as a **supportive and protective procedure** which can be used when a student's health, wellbeing and/or behaviour has a detrimental impact on his/her ability to progress academically and function at university. It is intended to ensure that students who cause concern can expect a considered and consistent response. This procedure should be used for any student whose ability to cope with university life, to study or progress on their course is significantly compromised as the result of their health, wellbeing or a disability and where intervention **beyond normal support mechanisms** is deemed necessary and/or where the student **has not engaged with support mechanisms** offered.

It is expected that the procedure will be applied only to a small number of students. It is intended to be limited to those students who are

- Hard to reach
- Have not accessed existing support mechanisms
- Potentially at physical, psychological or academic risk or whose behaviour is putting other students at significant academic risk

The procedure may be used for all levels and modes of study: foundation, undergraduate, postgraduate taught, postgraduate research, and for full time and part time study.

This procedure refers only to students at SOAS

The procedure aims to ensure that:

- Staff from Faculties and from Professional Services work together where appropriate so that students experience a consistent and fair process.
- The best interests of the student are considered in relation to their personal situation, their health, wellbeing and/or any disability they may experience

- Students are supported to study to the best of their ability, and wherever possible to meet the required learning outcomes and complete their course
- Students who are experiencing difficulties in relation to their health, wellbeing and/or disability are supported to address their difficulties at the earliest appropriate point
- Students are able to make informed decisions regarding options available

Any reasonable adjustments that the student may be entitled to are considered and where appropriate put in place

How the procedure should be used

Concerns should be acted on promptly as early intervention and support can result in better outcomes for the student and may avoid the situation becoming more complex.

The procedure may be started by anyone with regular contact with the student concerned

If staff are unsure about whether to implement this procedure, they should seek advice and discuss their concerns with the people listed below. In order to work within the boundaries of confidentiality and data protection these initial concerns need to be discussed without using the student's name.

Monitoring

It will be the responsibility of the [insert responsible role] to monitor the effectiveness of this policy/procedure by:

- assessing the nature and frequency of cases and identifying any patterns which need to be addressed
- monitoring individual complaints or cases to ensure that they are effectively resolved

Training

Appropriate training and development to be made available to all staff to support the Fitness to Study Procedures.

For advice about use of this procedure please contact:

- Student Advice and Wellbeing: studentadviceandwellbeing@soas.ac.uk
- Diversity Advisor
- Head of Registry

This procedure should be read in conjunction with and is intended to work alongside existing School policies/procedures, in particular

- Mitigating Circumstances
- Student Charter
- Dignity at SOAS
